DEC 2020 UPDATE

www.gandey.com

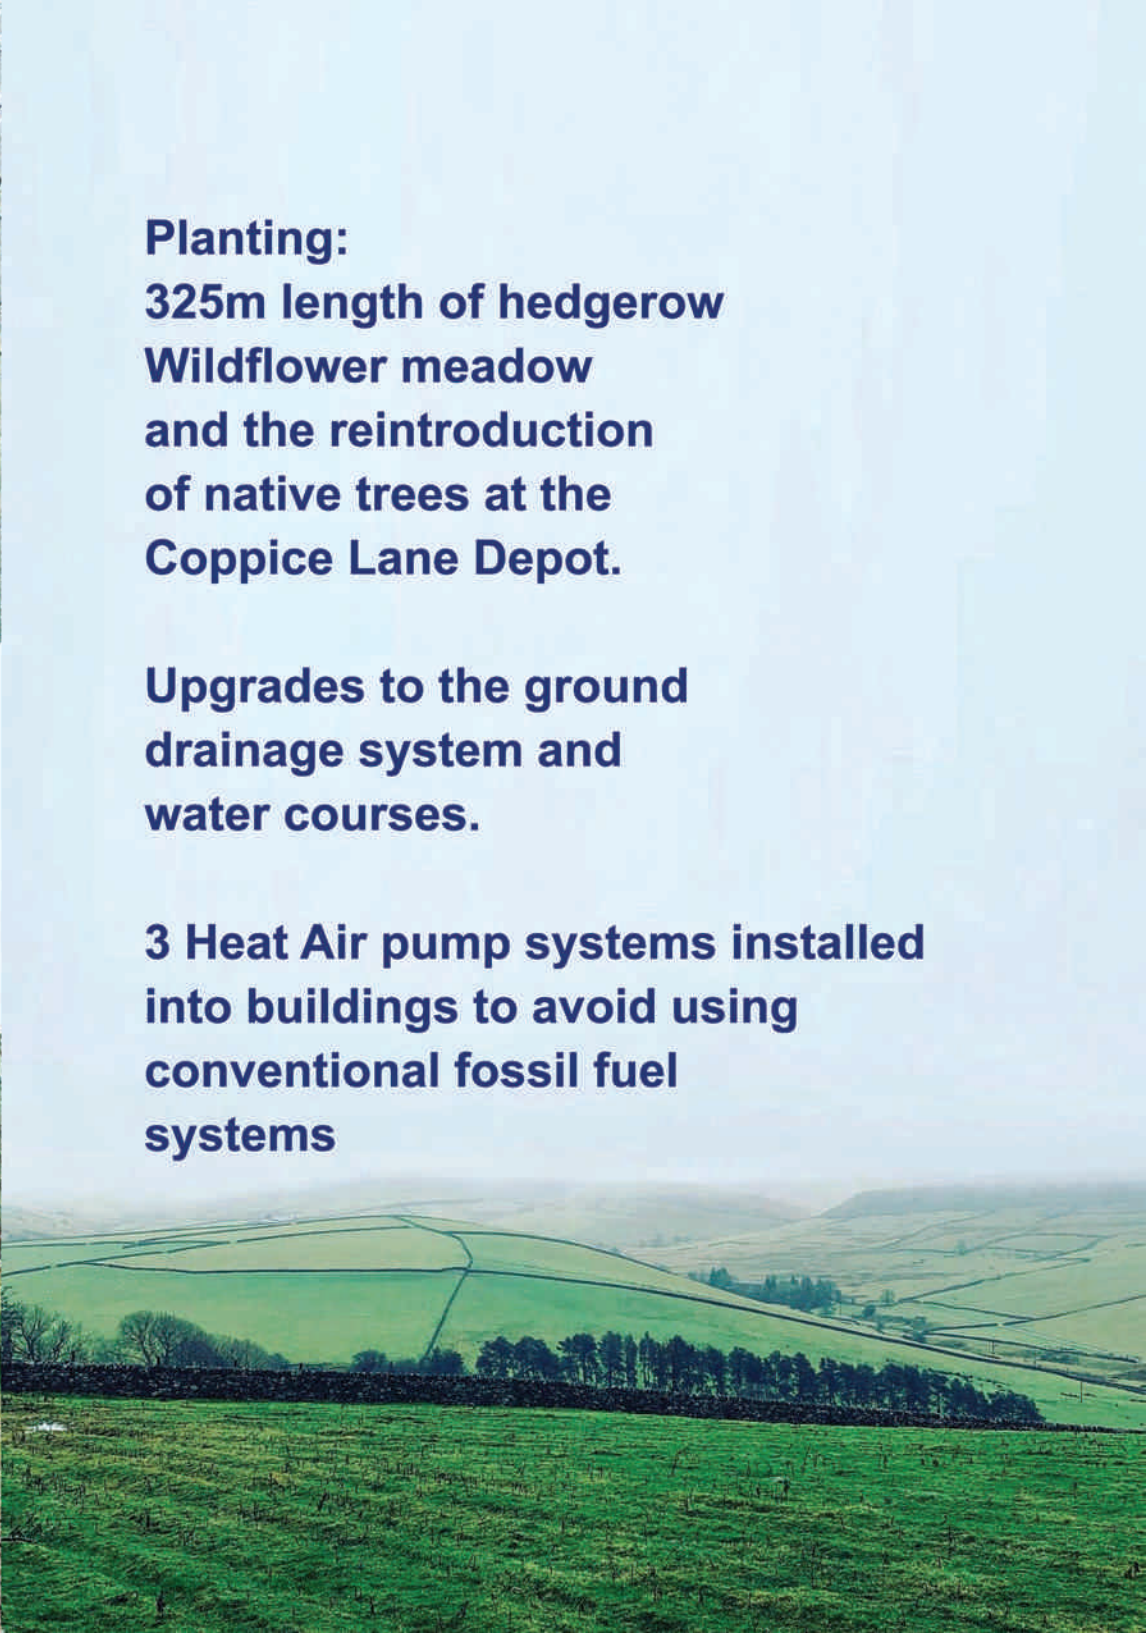

An update to the Environmental endeavours at the end of what has been a challenging year for all of us

**Planting:
325m length of hedgerow
Wildflower meadow
and the reintroduction
of native trees at the
Coppice Lane Depot.**

**Upgrades to the ground
drainage system and
water courses.**

**3 Heat Air pump systems installed
into buildings to avoid using
conventional fossil fuel
systems**

Revisited our digital Hardware, recycled old systems and replaced with more energy efficient machines with Energy Star 7.0 and GREENGUARD®

Integration of new microsoft software to enable remote working. The use of TEAMS to create a more efficient, streamlined office, cutting down the use of paper.

Audited the Marketing materials used in 2018/19, calculating ROI, adjusted and reduced qtys for 2021 by 27 % saving money while avoiding paper waste

Audited props and costumes at the end of the touring season; repaired, re-purposed and recycled where necessary.

Repairs and upgrades to the light and sound equipment with more integration of LED's. Recycled any unwanted or broken equipment.

Upgraded and streamlined the transport fleet reduced the number of our vehicles on the roads reducing carbon emissions

Rethought tour routes for 2021, By rerouting a total of 1023 miles saved across the same number of venues. Just this action alone has reduced CO₂ emission, less diesel used and saved £8600 in fuel costs

Revisited performers touring schedules extending visas, reducing the number of flights needed.

An initial saving of 11 Long Haul flights which would have caused 67,953lbs or 30.8 tonnes of CO₂ emissions which would need a total of 794 trees to be planted to offset this.

**Source; terrapass.com/carbon-footprint-calculator
11 flights; 2 x khazakstan, 4 x Kenya, 2 x Cuba
1 x Thailand, 1 x Mexico, 1 x Argentina*
